Max Messick

Full-Stack Developer

Columbus, Ohio · (614) 749-5434 · maxamus87@gmail.com

Full-stack developer building React and TypeScript front ends backed by Node.js/Express REST APIs and PostgreSQL, deployed to the cloud through CI/CD. Uses Claude Code daily for AI-assisted development, reviewing and testing every change, and debugs by tracing problems to their root cause. Nearly nine years of technical support at Columbus Metropolitan Library bring strong troubleshooting and communication skills, and a digital illustrator's eye for design shapes interfaces that are clear and polished.

TECHNICAL SKILLS

- JavaScript
- TypeScript
- Python
- SQL
- HTML5
- CSS3
- React
- React Router
- Vite
- Node.js
- Express
- REST APIs
- PostgreSQL
- Prisma
- Supabase
- Docker
- Git & GitHub
- Vercel
- Postman
- Jira
- Claude Code
- Google Maps API
- Figma
- Bash

PROFESSIONAL SKILLS

- Technical Troubleshooting
- Communication
- Team Collaboration
- Data Tracking
- Microsoft Office
- Digital Illustration

PROJECTS

ToolBnb — Full-Stack Tool Lending Platform

React, TypeScript, Node.js, Express, PostgreSQL (Prisma + Supabase)

- Team capstone: built a RESTful Express API with modular routes, controllers, and middleware over a PostgreSQL schema.
- Secured endpoints with authentication and request validation; tested APIs in Postman.
- Tracked work in Jira with peer code review on GitHub and CI/CD to Vercel on every push.

Where's My Coffee? — Full-Stack Coffee Shop Finder

React, Vite, Express, PostgreSQL (Prisma + Supabase), Google Maps API

- Interactive Google Maps view with search, filtering, reviews, and favorites over an Express REST API.
- JWT authentication for user routes, with API keys and secrets kept in environment variables.

Developer Portfolio

HTML, CSS, JavaScript, Puppeteer, Claude Code

- Traced an intermittent production bug to a load-event race condition and fixed it with a ResizeObserver.
- Automated PDF resume generation from HTML with Puppeteer.

EMPLOYMENT HISTORY

CALL CENTER SPECIALIST

Columbus Metropolitan Library

Nov 2021 — Mar 2026

- Resolved 100+ queued inquiries daily, troubleshooting technical and account issues.
